

2022

Homeless Count Report

Merced City and County Continuum of Care

March 2022

ACKNOWLEDGEMENTS

The 2022 Merced County Homeless Count and Survey was a success due to the efforts of the following volunteers:

Aaron Zirbel	Kimberlee Flores
Angel Schwind	Lauren Marks
Angie Railton	Marcella Morales
Ashley Gierman	Maria Santos
Beatriz Hernandez	Maribel Baron
Bernice Mendoza	Marisol Calderon
Cecilia Garcia-Cardenas	Marisol Calderon
Chris Talens	Mark Martinez
Christy McCammond	Martha Sanchez
Cori Lucero	Martin Tapia
Cornelia Leyva	Matthew Serratto
Cristian Vargas	Melinda Xiong
Crystal Condon	Michael Belluomini
Dennis Rightnar	Michelle Whitaker
Eamon Kelsey	Nailah Fatima
Elizabeth Tyler	Naomi Elliott
Erin Thomas	Nina Thornton
Gary Brizzee	Odilia Garcia
Georgina Lopez	Oyinkansola Amao
Gina Thomas	Pablo Perez
Gina Trujillo	Robert Railton
Goldie Corona-Thurman	Roger Wyan
Helidee Millan-Govea	Roxanne Alcivar
Henry Rojas de Leon	Samuel Mendoza
Irvin Guzman Gutierrez	Sandra Salas
Ivan Mendez	Sara Maldonado
Jaime Garcia	Sargeez Teimoorshahi
Jennifer Carr	Sarrah Robinson
Jennifer Estrada	Scott Dustin
Jennifer Loa	Shelby Paez
Jennifer Sherar	Sheryl Fink Serros
Jenny Alvarez	Sheryl Fisher
Jeremiah Greggains	Stephen Hammond
Jose Perez	Taranjeet Kaur
Julie Kellum	Thao Her
Kade Aguilar	Tina Lahman
Karen Souza	Tyler Jimerson
Kathleen Hanshew	Yvonne Ortega
Ken Percival	
Linda Dash	

Furthermore, we would like to acknowledge the following organizations:

- ACE Overcomers
- Bear Creek Yacht Club
- Bethel Community Church
- Central Valley Community Foundation
- City of Merced/ DA's Office
- Fresno State
- Healthy House Merced
- LifeLine CDC
- Livingston Community Health Clinic
- Los Banos Police Department
- Merced County Behavioral Health and Recovery Services
- Merced County Human Services Agency
- Merced County Rescue Mission
- New Direction
- Rotary
- Sierra Saving Grace Homeless Project
- Turning Point Community Programs
- University of California, Merced

The 2022 Merced County Continuum of Care
Homeless Count and Survey was
Coordinated by Phil Schmauss
phillipschmauss@gmail.com

NOTE: Please contact Phil Schmauss concerning any volunteer or agency that was mistakenly omitted.

The report was prepared by the Institute for Urban Initiatives
Joe Colletti, PhD, Chief Executive Officer, Institute for Urban Initiatives
Sofia Herrera, PhD, Executive Director, Office for Urban Initiatives

Total Number of Homeless Persons	7
Unsheltered Persons	10
Unsheltered Count Methodology	10
Sheltered Persons	15
Appendix A: A breakdown of unsheltered persons by subpopulation data for cities with an unsheltered count of 15 or more persons.	20

Key Findings

- There were 855 adults and children under age 18 who were homeless on Thursday, January 27, 2022. In 2021, 835 adults and children were counted. A comparison of these two counts reveals that 20 more persons were counted in 2022, which represents an increase of 2%.
- Of the 855 persons counted, 363 adults and 5 children were unsheltered, and 341 adults and 146 children were sheltered.
- The number of unsheltered adults and children under age 18 decreased from 455 in 2021 to 368 in 2022, representing a 19% decrease.
- The number of sheltered adults and children in families increased from 163 in 2021 to 228 in 2022. This represents an increase of 40%.
- Nearly three-fourths of persons counted as unsheltered were in the cities of Merced and Los Banos. 60.9% in the city of Merced and 13.9% in the city of Los Banos.
- Nearly one out of five persons (19%) counted as unsheltered became homeless for the first time during the past 12 months.
- More than half (56.7) of unsheltered adults had no income. More than two-thirds (67.9%) of them had a \$500 or less monthly income.

I. Background Information Concerning the Homeless Count

The Department of Housing and Urban Development HUD), as part of its requirements for local jurisdictions to continue to receive continuum of care funding for homeless persons, asks local jurisdictional applicants to conduct a “one-night point-in-time” homeless count every other year during the last 10 days of January.

HUD requires all CoCs that receive CoC Program funding to complete a sheltered count every year and an unsheltered count during the last 10 days of January in odd-number years. The Merced County CoC conducts an unsheltered count every year.

1. When Was the Count Conducted?

The unsheltered count was conducted on Thursday, January 27, 2022. The sheltered count was conducted overnight on January 26 in shelters and transitional housing programs.

2. Who was Counted?

A person was considered homeless and thus counted only when he/she fell within the following HUD-based definition by residing in one of the places described below:

- In places not meant for human habitation, such as cars, parks, sidewalks, and abandoned buildings;
- In an emergency shelter; and
- In transitional housing for homeless persons who originally came from the streets or emergency shelter.

HUD does not consider the following persons to be homeless—persons who are “doubled up,” or persons who are “near homelessness”—but considers them to be at-risk of homelessness. Following HUD’s guidelines, such persons were not included in the county’s homeless count.

The County of Merced, like many other counties, has a substantial number of households that are at-risk of becoming homeless. Sixteen percent (16%) of Merced County residents were living below the poverty level, according to the 2021 American Community Survey (ACS). This means that approximately 45,000 of the 281,202 County residents representing around 15,000 households are at risk of becoming homeless on a day like today.

Households living below the poverty level are at risk of becoming homeless. Because of their limited income, they frequently have to choose between paying their rent or mortgage and other daily living costs such as child care, clothing, food, health care, and transportation. The generally accepted standard for housing affordability is that households should not spend more than 30% of their incomes on rent and utilities.

Many households can become homeless because of social structural issues such as increases in rent, loss of job, and rising health care costs. In addition, personal experiences such as domestic violence, physical disabilities, mental illness, and substance abuse can cause members of a low-income household or an entire household to become homeless as well. One or more of these experiences often factor into a household's homelessness experience.

3. Who Conducted the Count?

Approximately 70 counters carried out the street count on January 27th. They consisted of a wide-range of local representatives from various public and private organizations that included:

- Businesses;
- Faith-based organizations;
- Homeless and Formerly Homeless individuals;
- Local government; and
- Non-profit agencies.

In addition, staff from shelters and transitional housing programs counted residents in their respective programs.

II. Total Number of Homeless Persons

There were 855 adults and children who were homeless on Thursday, January 27, 2022. In 2021, 835 adults and children were counted. A comparison of these two counts reveals that 20 more persons were counted in 2022, which represents an increase of 2%.

Table 1. Comparison of 2021 and 2022 Homeless Counts

	Sheltered	Unsheltered	Total
2021 Homeless Count	380	455	835
2022 Homeless Count	487	368	855
Difference:	+107 (+28%)	-87 (-19%)	+20 (+2%)

Of the 855 persons counted, 363 adults and 5 children were unsheltered, and 341 adults and 146 children were sheltered.

The number of unsheltered adults and dependent-aged children decreased from 455 in 2021 to 368 in 2022, representing a 19% decrease.

The following chart shows that the number of persons counted as homeless increased between 2018 and 2022. There were 855 persons counted in 2022, which is an increase of 341 or 66% compared to the number of persons counted in 2018.

Chart 1.

It is important to note that the U.S. Department of Housing and Urban Development (HUD) limits the count to persons who are defined as:

- Homeless persons living in a place not designed or ordinarily used as a regular sleeping accommodation for humans (these persons must be counted as unsheltered); and
- Persons living in emergency shelters and transitional housing projects (these persons must be counted as sheltered).

Regarding sheltered homelessness, the U.S. Department of Housing and Urban Development (HUD) states that:

- *CoCs must count all individuals or families who meet the criteria in paragraph (1)(ii) of the homeless definition in 24 CFR 578.3. This includes individuals and families **“living in a supervised publicly or privately operated shelter designated to provide temporary living arrangements (including congregate shelters, transitional housing, and hotels and motels paid for by charitable organizations or by federal, state, or local government programs for low-income individuals)”** on the night designated for the count. This includes individuals residing in Safe Haven projects.*

Regarding unsheltered homelessness, HUD states that:

- *CoCs must count all individuals or families who meet the criteria in paragraph (1)(i) of the homeless definition in 24 CFR 578.3. This includes individuals and families **“with a primary nighttime residence that is a public or private place not designed for or ordinarily used***

as a regular sleeping accommodation for human beings, including a car, park, abandoned building, bus or train station, airport, or camping ground” on the night designated for the count. RRH-assisted households who are still unsheltered on the night of the count (e.g., staying in an encampment and being assisted by an RRH project to obtain housing) must be included as part of the unsheltered count.

Table 2 provides a breakdown of the total number of unsheltered and sheltered persons counted in 2022 by jurisdiction. More than three-fourths of persons counted as homeless were in the cities of Merced and Los Banos—nearly two-thirds (64.9%) in Merced and 14.6% in Los Banos.

Table 3 provides a 2021 and 2022 comparison of unsheltered and sheltered persons by jurisdiction. The City of Merced had the largest comparable increase. The total number of persons counted as unsheltered was the same for both years. The total number of sheltered persons increases from 258 in 2021 to 331 in 2022, representing an increase of 73 persons or 28%.

*Percentages were only provided for differences that were 200% or less.

**Includes a proportional distribution of households who received motel vouchers, but whose whereabouts were unrecorded.

***DV programs.

III. Unsheltered Persons

1. Methodology

A homeless count and subpopulation survey instrument was used to gather unsheltered data by counters. The survey data was gathered primarily by utilizing Simtech Solutions, Inc.'s "Counting Us" mobile app. Volunteers entered survey questions on their mobile devices, where survey data was instantly submitted to a regional command center. The survey questions were focused on gathering demographic information and subpopulation as required by HUD. The survey instrument focused on gathering responses to determine the number of persons for each subpopulation required by HUD. The survey instrument also gathered responses to other questions that were used to create a unique identifier that was used to determine if any persons were counted more than once. Each person was only included once in the total number of persons counted. All information gathered through the survey instrument remains confidential.

HUD requires the total number of unsheltered adults and children under age 18 to be broken down into the following subpopulation categories:

- Age;
- Ethnicity;
- Gender; and
- Race

Of the 368 persons counted as unsheltered, 363 were adults, and 5 were children under age 18.

2. Age

Table 4. Unsheltered Adults and Children by Age

Age	#	%
Under Age 18	5	1.4
Ages 18 - 24	25	6.8
Age 25 - 34	68	18.5
Age 35 - 44	106	28.8
Age 45 - 54	95	25.9
Age 55 - 61	48	13.0
Age 62+	21	5.6
Total:	368	100

3. Ethnicity

Table 5. Unsheltered Adults and Children by Ethnicity

Ethnicity	#	%
Hispanic or Latino	136	37.1
Southeast Asian	15	0.4
All Others	217	62.5
Total:	368	100

4. Gender

The following table provides a breakdown of the total number of unsheltered adults and children by gender.

Table 6. Unsheltered Adults and Children by Gender

Gender:	#	%
Male	265	71.9
Female	101	27.5
Transgender	2	0.6
Non-Conforming (i.e. not exclusively male or female)	0	0.0
Total:	368	100

The next table provides a breakdown of the total number of unsheltered adults and children by ethnicity. Concerning ethnicity, HUD only requires that Hispanics or Latinos be noted. However, the Merced CoC included Southeast Asian (Hmong, Cambodian, Taiwanese, Laotian, Vietnamese, etc.).

5. Race

The following table provides a breakdown of the total number of unsheltered adults and children by race.

Table 7. Unsheltered Adults and Children by Race

Race	#	%
African American or Black	41	11.2
American Indian or Alaska Native	8	2.2
Asian	4	1.1
Native Hawaiian or Pacific Islander	0	0.0
White	236	64.0
Multiple Races or Other	79	21.5
Total:	368	100

6. Families

HUD requires the following information regarding the total number of families and chronically homeless families and the total number of persons in families:

- Three (3) families included nine persons, of which four were adults and five were children.
- There were no chronically homeless families.

7. Subpopulations

HUD requires the total number of unsheltered adults to be broken down by the following homeless subpopulation categories:

- Adult Survivors of Domestic Violence (optional);
- Adults with HIV/AIDS;
- Adults with a Serious Mental Illness;
- Adults with a Substance Use Disorder;
- Chronically Homeless Individuals;
- Single Individuals; and
- Veterans.

The next table also provides the breakdown of the total number of unsheltered adults by:

- Developmental Disability
- Physical Disability

The next table breaks down the total number of unsheltered adults by subpopulations based on the information gathered by the homeless count App, which included questions that were asked of each unsheltered adult counted.

Table 8: Estimates of Unsheltered Subpopulations

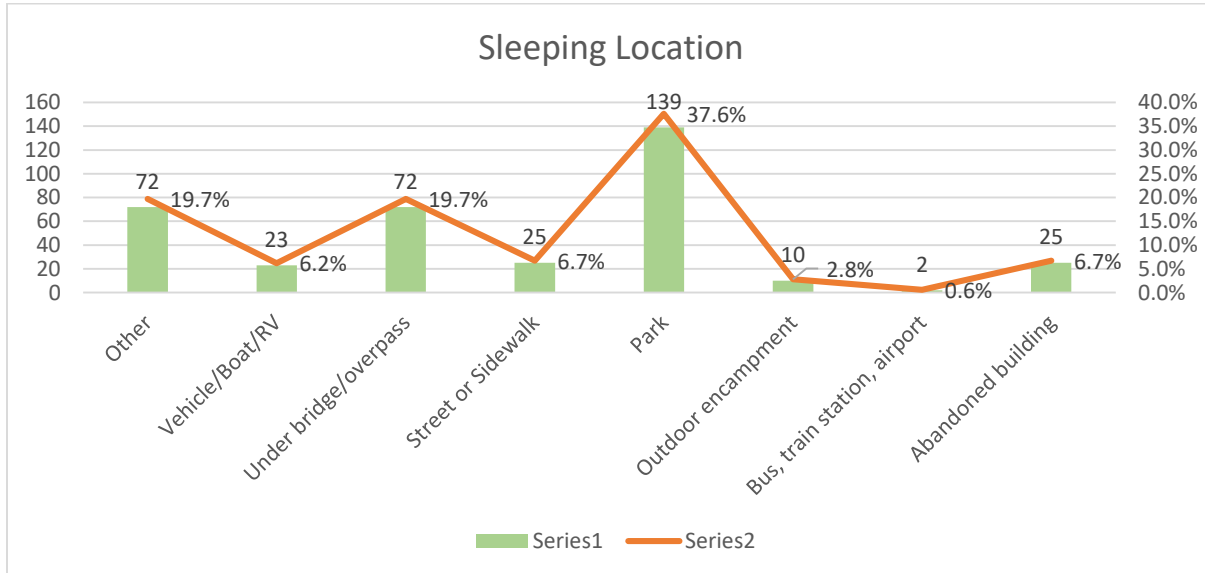

Subpopulation (Adults Only):	#	%
Total Unsheltered Adults:	363	100
Chronically Homeless Persons	126	34.8
Persons with Developmental Disabilities	63	17.4
Persons with HIV/AIDS	10	2.8
Persons with Serious Mental Health Problems	93	25.6
Persons with Physical Disabilities	100	27.5
Substance Users (on-going problem)	100	27.5
Veterans	12	3.3
Victims of Domestic Violence	26	7.3
Currently experiencing homelessness because you are fleeing domestic violence, dating violence, sexual assault, or stalking	14*	3.8

*These persons are included under victims of domestic violence

8. Sleeping Location

The following chart shows that more than one-third (37.6%) of persons slept in a park.

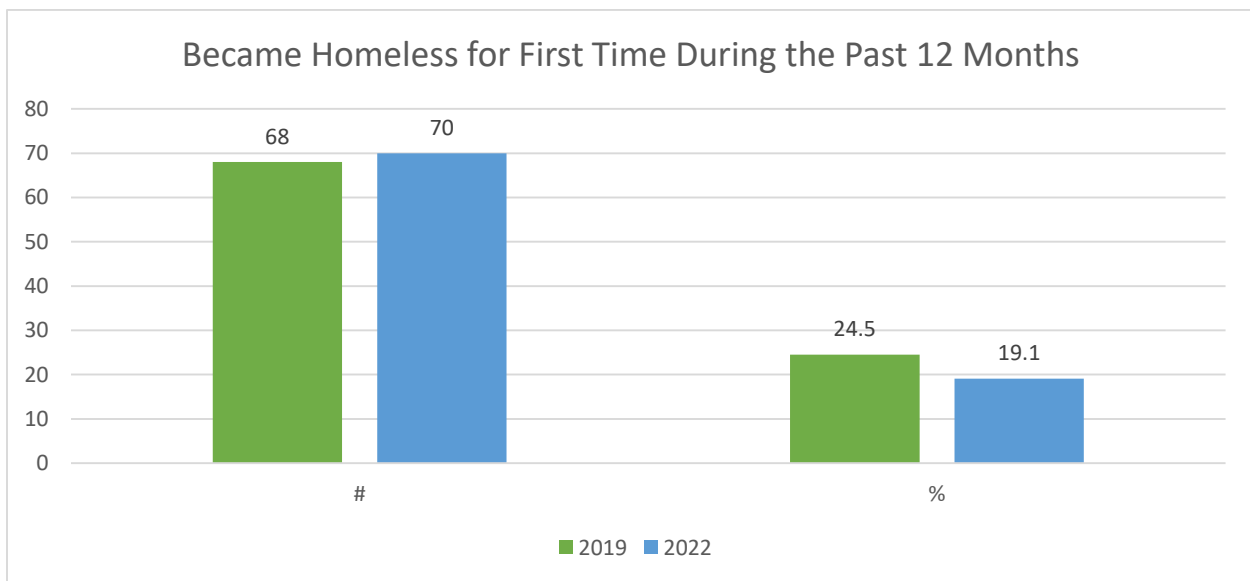

Chart 2.

9. Became Homeless for the First Time During the Past 12 Months

The following chart notes that 24.5% or 68 out of 278 unsheltered adults became homeless for the first time during the past 12 months in 2019* and 19.1% or 70 out of 363 unsheltered adults in 2022.

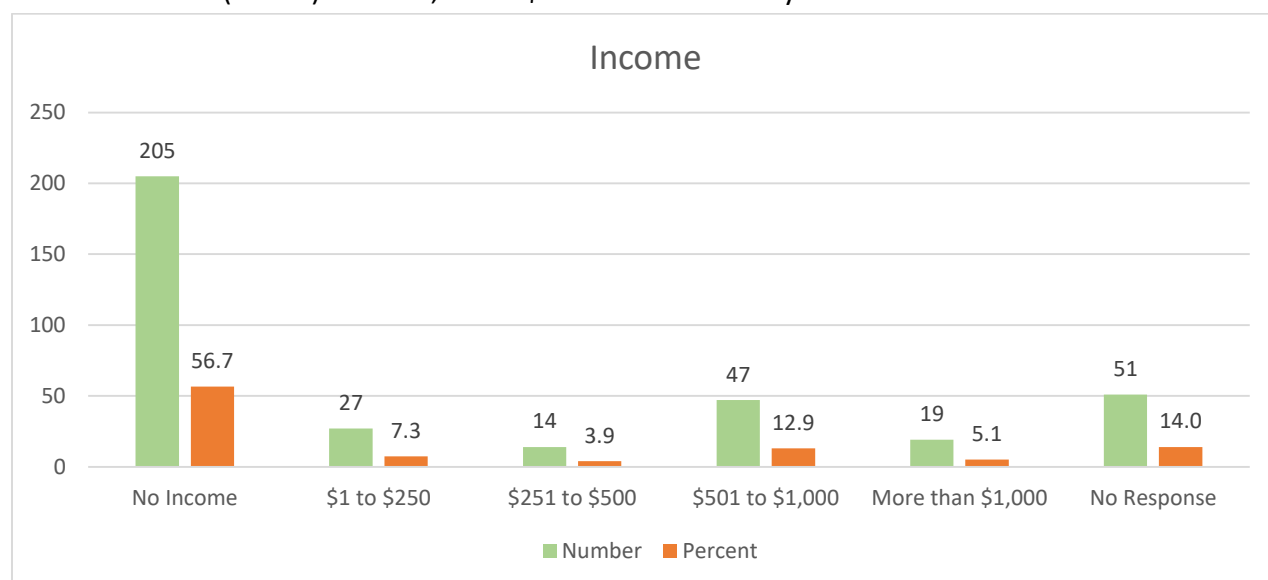

Chart 3.

*The question was not asked during the 2020 and 2021 counts.

10. Income

The following chart notes that more than half (56.7) of unsheltered adults had no income. More than two-thirds (67.9%) of them, had a \$500 or less monthly income.

11. Appendix A

See Appendix A for a breakdown of unsheltered persons by subpopulations for cities with an unsheltered count of 15 or more persons.

IV. Sheltered Persons

As required by HUD, the sheltered count included the number of persons and households sleeping in emergency shelters (including seasonal shelters), transitional housing, and Safe Haven programs (of which the County has none) that were listed on the Housing Inventory Chart (HIC). In addition, any persons staying in hotels or motels because of receiving a voucher from a social service agency were included in the sheltered count per HUD's instructions, and the voucher program was listed on the HIC.

1. Methodology

HUD encourages the use of Homeless Management Information Services (HMIS) data to generate sheltered counts and subpopulation data for programs with 100% of beds participating in HMIS. Thus, HMIS was used to gather the total number of occupied beds and a breakdown of the number of sheltered adults and children by subpopulation (see Tables 10 – 13 below) for nearly all sheltered programs. Program data was used for programs not participating in HMIS.

Table 9. Total Shelter Count by Program

Facility	Program:	Total # of Persons

Merced County Rescue Mission	Transition to Hope – Los Banos	8
Merced County Rescue Mission	Transition to Hope – Merced	32
Symple Equazion	Aim High	5
Sub-Total:		115
Total:		487

HUD requires the total number of sheltered adults and children under age 18 to be broken down into the following homeless subpopulation categories:

- Ethnicity;
- Gender; and
- Race.

Of the 487 persons counted as sheltered, 341 were adults and 146 were children.

2. Ethnicity

The next table provides a breakdown of the total number of sheltered adults and children by ethnicity. Concerning ethnicity, HUD only requires that Hispanics or Latinos be noted. However, the Merced CoC included Southeast Asian (Hmong, Cambodian, Taiwanese, Laotian, Vietnamese, etc.).

Table 10. Sheltered Adults and Children by Ethnicity

Ethnicity	#	%
Hispanic or Latino	143	29.3
Southeast Asian	3	0.6
All Others	341	70.1
Total:	487	100

3. Gender

The following table provides a breakdown of the total number of sheltered adults and children by gender.

Table 11. Sheltered Adults and Children by Gender

Gender	#	%
Male	275	56.5
Female	211	43.3
Transgender	1	0.2
Non-Conforming (i.e. not exclusively male or female)	0	0.0
Total:	487	100

4. Race

The following table provides a breakdown of the total number of sheltered adults and children by race.

Table 12. Sheltered Adults and Children by Race

Race	#	%
African American or Black	111	22.8
American Indian or Alaska Native	12	2.4
Asian	25	5.1
Native Hawaiian or Pacific Islander	1	0.3
White	302	62.1
Multiple Races or Other	36	7.3
Total:	487	100

5. Subpopulations

HUD requires the total number of sheltered persons to be broken down by the following homeless subpopulation categories for the unsheltered adult population except for chronically homeless families and families:

- Adult Survivors of Domestic Violence (optional);
- Adults with HIV/AIDS;
- Adults with a Serious Mental Illness;
- Adults with a Substance Use Disorder;
- Chronically Homeless Individuals;
- Veterans; and
- Youth Age 18 – 24.

Table 13: Sheltered Adults by Selected Subpopulations

Subpopulation (Adults Only):	#	%
Total Sheltered Adults:	341	100
Chronically Homeless Persons	51	14.9
Persons with HIV/AIDS	2	0.5
Persons with Serious Mental Health Problems	76	22.2
Substance Users (on-going problem)	65	19.0
Veterans	17	5.0
Victims of Domestic Violence	21	6.1
Youth Age 18 to 24	16	4.7

6. Families

HUD also requires the following information regarding the total number of families and chronically homeless families and the total number of persons in families:

- 65 families included 228 persons, of which 82 were adults, and 146 were children.
- 10 chronically homeless families included 37 persons, of which 11 were adults and 26 children.
